

Transforming Billing

Automating the Process

PRODUCT HIGHLIGHTS

- **IMAGINEradiology™** is the flagship practice management suite focused on increasing productivity, cash flow, and revenue through intelligent process automation.
- **trueICE** is the document imaging system that utilizes Smart Imaging Technology to eliminate the paper chase.
- **IMAGINEappliance™** provides “hands-free” billing that offers complete automation to the claim lifecycle.
- **IMAGINEris** is the web-based radiology information system that provides flexible and efficient workflow.

TECHNOLOGY SOLUTIONS THAT WORK FOR YOUR PRACTICE

IMAGINE Software is a leading provider of medical software solutions and services that are functional, practical and effective. We are committed to innovative development and to leveraging intelligent automation methods to help our clients achieve peak performance and measurable results. Through an active customer base, we focus on what matters the most – you.

“It feels good to be treated like a customer, again.”
(Diane Friedemann, Medical Billing Associates)
