

Streamline and Integrate Workflow with Agfa IMPAX[®] RIS/PACS for Imaging Centers

IMPAX RIS/PACS is a robust, comprehensive solution that streamlines and integrates RIS, PACS, Speech, Document Management, Mammography Tracking, Billing and Practice Analysis workflow to help imaging centers meet their productivity, profitability and quality control needs. The solution provides single desktop integration efficiencies for the radiologist while removing the complexities of multiple vendor system interfaces. The end result? Workflow is transformed, enabling your imaging center to enhance communications with referring physicians and become more efficient. Inspire the future. Transform today. Achieve real results. That's the power of Agfa's integrated thinking.
